Amplifon – Hearing Health Discount Program

The Amplifon Hearing Health Discount Program is a special benefit offered through our partnership with Amplifon. This program provides members with access to pre-negotiated, reduced rates on hearing aids and related services. It is a complimentary, value-added benefit available to all United Association members and their families across North America. By participating in this program, members and their loved ones can save an average of 64% to 70% off the retail prices for hearing aids.

This program demonstrates our commitment to supporting members by leveraging our collective bargaining power to reduce out-of-pocket hearing care expenses.

By coming together, we can secure significant cost savings and make healthy hearing more accessible for our members and their families.
